

LeadFlow Thailand ? AI Automation Funnel

Smart 1% Documentation Package

Presentation-ready funnel documentation for client-facing proof, tracking clarity, and conversion planning.

LeadFlow TH

AI Automation

ROI-first

SME + Enterprise

1. Funnel Overview / ?????? Funnel

Flow: Blog pages attract readers, email capture forms collect leads, the lead magnet creates value, GA4/GTM tracks intent, email nurture builds trust, consultation forms convert demand, dashboards measure ROI, and bilingual testimonials reinforce proof before final conversion.

2. Conversion Tracking / ???????? Conversion

Event	Funnel Goal	Use in Dashboard
lead_magnet_download	Checklist download intent	Lead magnet demand + source quality
newsletter_signup	Email nurture opt-in	Top-of-funnel subscriber growth
form_submit + consultation_request	Consultation demand	Primary conversion goal
internal_link	Content path movement	Blog / case study assisted conversion
cta_click	CTA engagement	CTR and page-level CTA testing

Dashboard goal: show CTR, form conversion rate, lead magnet download volume, consultation requests, device/source/page segmentation, and assisted conversion from blog/case study content.

3. Email Nurture Sequence 1-5 / ????????????????

Email	Purpose	CTA
1. Thank You + Checklist	Deliver the PDF and move readers to blog/case study content	Read more / ????????????
2. Case Study Proof	Use BMW and Origin proof to build credibility	LeadFlow consultation
3. Blog Insight	Educate on high-ROI workflows for SME teams	Read workflow blog + consultation
4. Free Consultation CTA	Convert intent into a direct consultation request	?????????????
5. Reminder + Final Push	Create urgency and remind readers of competitive advantage	?????????????

Consistent CTA: <https://bbgunmis-alt.github.io/Sirawith-Portfolio-HTML/LeadFlow%20Thailand.html#lead-form>

4. Customer Testimonials / ????????????????

???????? ? ?????????????????????????

?? LINE OA ????????? ????????? LeadFlow ????????????????????? ????????????????????? ?????????
????????????????????????????

Before, I spent hours replying to customers manually on LINE OA. With LeadFlow, replies are instant, customers are happier, and my sales increased significantly.

???????? ? ????????????????????????? ????????????? ?????????

???????????????????????????????????? Facebook ??? LINE ?????? ????????????????????? ?????? LeadFlow ????????????????????? Google Sheet ?????????
???????????????????????? real-time ?????????????????????????

Our team used to manually merge customer data from Facebook and LINE, which took hours. Now LeadFlow syncs everything into Google Sheets in real-time, helping sales close deals faster.

???????? ? ?????????????????????????????????????

???????????????????????????? LeadFlow ???
??

I am not tech-savvy, but LeadFlow made setup simple. Every new order now triggers an automatic email confirmation, and I am confident no orders are missed.

Proof layer role: testimonials reduce buyer uncertainty by showing practical, human outcomes: faster replies, real-time data, fewer missed orders, and improved sales confidence.

5. Dashboard & ROI / Dashboard ?????????????

? CTR: CTA clicks divided by page views, used to identify which page sections create intent.

? Form Conversion Rate: form submissions divided by CTA clicks, used to test friction and offer clarity.

? Consultation Requests: primary sales-ready lead metric from LeadFlow form submissions.

? Lead Magnet Downloads: early intent signal from checklist demand.

? Segmentation: device, source/medium, and page group to compare Portfolio, Blog, Case Studies, and LeadFlow.

Dashboard description: Looker Studio should visualize Page Views -> CTA Clicks -> Lead Magnet Downloads / Newsletter Signups -> Form Submissions -> Consultation Requests, with proof assets and testimonials used as conversion support.

6. Next Steps / ?????????????

- ? Validate events firing in GA4 DebugView: lead_magnet_download, newsletter_signup, form_submit, internal_link, cta_click.
- ? Map form_submit to consultation_request in GA4 or GTM if a separate business conversion name is needed.
- ? A/B test CTA placement on Blog pages and LeadFlow Thailand landing page.
- ? A/B test subject lines for Email 2 and Email 5 to improve consultation clicks.
- ? Segment follow-up by page source: SME blog, workflow blog, CRM blog, marketing blog, LeadFlow landing.
- ? Use retargeting audiences for visitors who downloaded the checklist but did not submit consultation form.

Recommended owner: LeadFlow TH. Review cadence: weekly during the first 30 days, then monthly once baseline conversion rates are stable.
